

Play saved music and videos

Play a music file or video

You can play saved music and videos on your Chromebook with its built-in player.

To play a saved file:

1. Sign in to your Chromebook.
2. Click the launcher .
3. Select Files .
4. Double-click a file to open it in the media player.

Control the media player

Once you've opened a file in the media player, you can:

- Play or pause by clicking  or 
- Scan forward or backward by sliding the progress bar right or left
- See your whole playlist by clicking 
- Skip backwards or forwards for audio files by clicking  or 

You can adjust volume and audio output source (like headphones or speakers) from the status area, where your account picture appears.
